

IN THE ABSTRACT

Amend the abstract as follows:

A light-emitting device contains ~~is provided with~~ getter material (58) typically that ~~can readily be~~ distributed in a relatively uniform manner across the device's active light-emitting portion. An electron-emitting device similarly contains ~~is similarly provided with~~ getter material (112, 110/112, 128, 132, and 142) typically that ~~can readily be~~ distributed relatively uniformly across the active electron-emitting portion of the device. ~~Techniques such as thermal spraying, angled physical deposition, and maskless electrophoretic/dielectrophoretic deposition can be utilized in depositing the getter material.~~
